

# Suggested Donations

When refugees arrive in Twin Falls they are set up in houses or apartments with only the bare necessities. For example, a family would only receive enough kitchen utensils (plate, fork, spoon, knife, drinking glass, etc.) for each person to have one item. The list below shows what CSIRP provides brand new to each refugee upon arrival. The majority of the donations we receive are clothes. Our greatest need is for household items. **High need items are starred (\*\*)** below.

**Please Note:** If we receive brand new donations of the following 10 items, the amount saved is given to the refugee individual or family to purchase other necessities.
